## Do you want to run this application?

 **Name:** Java Detection

**Publisher:** Oracle America, Inc.

**Location:** <https://java.com>

This application will run with unrestricted access which may put your computer and personal information at risk. Run this application only if you trust the location and publisher above.

Do not show this again for apps from the publisher and location above

 More Information

**Run** **Cancel**

After installing Java, you may need to reload or quit your browser in order to enable Java in your browser.

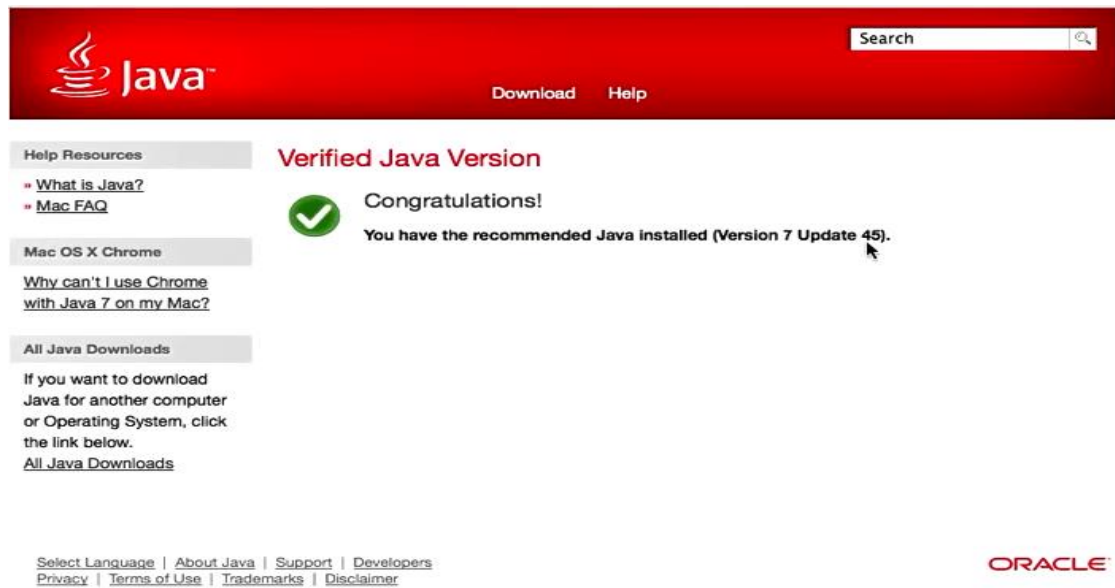

If you have installed Java and there is an error with the verification, there could be a configuration issue (eg. browser, Java control panel, security settings).
