HOW TO RUN ORACLE WEB-BASED APPLICATION SYSTEM:

Using Mozilla Firefox :

- 1. Download and install the **Oracle Java Initiator** (jinit).
 - (a) If the system is unable to start, please download and install the Oracle Java Virtual Machine.
 - (b) Then start the system again.
 - (c) If the system is unable to start, please follow the next steps.
- Browse the folder in the directory of C:\Program Files\Oracle\JInitiator 1.1.8.16\bin.
 (a) Copy the file with name "NPJinit-11816.dll" from the folder.
